FOR IMMEDIATE RELEASE

House Appropriations Subcommittee on Education Holds Hearing on Cost of Prop. 206

STATE CAPITOL, PHOENIX – The House Appropriations Subcommittee on Education, chaired by Representative Jill Norgaard (R-18), today held a hearing on the cost of implementing Prop. 206.

The Subcommittee heard testimony from representatives from the Arizona Association of School Business Officials, the Arizona School Boards Association, the Saddle Mountain Unified School District, Edu-Prize Charter Schools, and Reid Traditional Schools.

“Without increased funding from the state, school districts are going to be forced to reduce staff or cut programs in order to comply with Prop. 206,” said Norgaard. **“That’s an unacceptable unintended consequence of Prop. 206.”**

On Thursday, January 26 at 9:00 a.m. in HHR 4, the House Appropriations Subcommittee on Public Safety, Infrastructure, and Resources will hear from Arizona business and industry leaders how the implementation of Prop. 206 will affect them.
